NEW DEVELOPMENTS & CONSTRUCTION

There are a number of new developments and redevelopments slated for Downtown Kingston in the near future. It has been determined that the downtown core can evolve with large scale intensification projects without impacting the important cultural heritage resources it holds.

These developments bring new housing and diversify commercial, employment and recreation options. This will help further Kingston's goals of sustainability and climate action, by bringing more population to the areas that don't require cars to get to places of work and play.
